
List of Figures

Figure 1-1	Absolute versus relative orientation.	8
Figure 2-1	The visual field.	13
Figure 3-1	A fixed coordinate system.	21
Figure 3-2	The Federal district of Washington, D.C.	24
Figure 3-3	Tolman’s training maze. Tolman’s “sunburst” maze.	27
Figure 3-4	Distortions in judgement of direction of cities.	29
Figure 3-5	Kuiper’s cognitive map model.	32
Figure 3-6	Guidelines for you-are-here maps.	38
Figure 3-7	A humorous representation of spatial distortion.	45
Figure 3-8	The ETAK system.	48
Figure 3-9	A typical trailblazing map with contour lines.	49
Figure 3-10	A VOR display.	53
Figure 3-11	A sectional chart showing flight from Sewanee to Maury County ...	54
Figure 3-12	Aerial navigation landmarks.	55
Figure 4-1	Aerial view of Palombara Sabina, Italy.	58
Figure 4-2	The rectangular/radial organization principle of Washington, D.C. .	59
Figure 4-3	Decision plans within a decision diagram.	63
Figure 4-4	The execution of a unit level decision.	64
Figure 4-5	Oriole Park at Camden Yards.	68
Figure 4-6	The Washington MetroRail schematic plan.	69
Figure 4-7	Crystal City in Arlington, Virginia in axonometric view.	70
Figure 4-8	Identification of wayfinding tasks.	76
Figure 4-9	Identification of user profiles.	76
Figure 4-10	Identification of wayfinding conditions.	77
Figure 4-11	Partial table used to identify design requirements.	77
Figure 4-12	Identification of a solution to a wayfinding task.	79
Figure 4-13	A decision diagram with its associated environmental information.	80
Figure 4-14	A schematic layout solution.	81
Figure 5-1	A simple information processing model of spatial orientation.	84
Figure 5-2	The expected versus actual perceived stimuli effect.	85

Figure 5-3	The hierarchical nature of compound wayfinding tasks.	89
Figure 5-4	Silicon Graphics Performer™ Town	97
Figure 5-5	A simple architectural walkthrough	97
Figure 5-6	A Naval simulation	98
Figure 5-7	The Virtual Windtunnel	99
Figure 5-8	A space simulation	99
Figure 5-9	The classification categories of spatial characteristics.	100
Figure 6-1	One DTED cell covers the region between NYC and Philadelphia.	105
Figure 6-2	The buffer zone surrounding each environment.	106
Figure 6-3	The radial grid as seen from above. The outer posts.	107
Figure 6-4	The map used with the map treatment.	108
Figure 6-5	The map/grid treatment.	109
Figure 6-6	The Fakespace Inc. BOOM3C™ and hand controller.	110
Figure 7-1	Total Time	117
Figure 7-2	Average Naive Search Time	118
Figure 7-3	Primed Search Time	119
Figure 7-4	Distance Travelled	121
Figure 7-5	The percent of environment viewed method of measurement.	122
Figure 7-6	Percent of Environment Viewed	123
Figure 7-7	The Ratio of Percent Viewed to Total Time	124
Figure 7-8	Average Velocity	125
Figure 7-9	An example of the map distance and direction metric technique.	127
Figure 7-10	Map Distance Error	128
Figure 7-11	Map Direction Error	129
Figure 7-12	Map Land Error	130
Figure 7-13	Total Map Error	131
Figure 7-14	Cognitive Factors	132
Figure 8-1	High-level schematic diagram of task execution.	137
Figure 8-2	Examples of acquire-orientation.	140
Figure 8-3	Examples of the spatial-memory representations observed.	149
Figure 8-4	Example of the local-search-method.	150
Figure 8-5	Example of the lawnmower-method.	151
Figure 8-6	Example of the multi-pass-method.	152
Figure 8-7	Example of the extent-method.	153
Figure 8-8	Examples of naive-searches.	154
Figure 8-9	Pictorial description of three conceptual spatial representations.	163
Figure 8-10	The three digit code used with the pie-slice-method.	165
Figure 8-11	The path chart and drawn map from the area-search-method.	166
Figure 8-12	The lawnmower and heuristic methods in the map treatment.	172
Figure 8-13	The area-search-method in the map/grid treatment.	178
Figure 9-1	A typical control treatment path and its associated map drawing.	181
Figure 9-2	A grid treatment showing the patterns of search	182

List of Figures

Figure 9-3	A map treatment illustrating the lawnmower method	183
Figure 9-4	Spatial Orientation to Visualization	185
Figure 9-5	Visualization to Primed Search Time:Control Treatment	186
Figure 9-6	Spatial Scanning to Average Velocity:Map/Grid	186
Figure 9-7	Spatial Scanning to Map Land Error:Control	187
Figure 9-8	Avg Naive Search:Map to Avg Naive Search: Map/Grid	188
Figure 9-9	Avg Naive Search:Map to Map Distance Error:Control	189
Figure 9-10	Avg Naive Search:Map/Grid to Map Distance Error:Control	189
